10:30 – 12:00  Yu Shih-Hsien (National University of Singapore)
Pointwise estimate for compressible Navier-Stokes

13:30 – 14:30  Yoshinori Morimoto (Kyoto University)
Revisit on the Boltzmann equation for Debye-Yukawa potential

14:40 – 15:40  Shinya Nishibata (Tokyo Institute of Technology)
Asymptotic stability of a rarefaction wave for symmetric hyperbolic-parabolic systems

15:40 – 16:10  Coffee break

16:10 – 17:00  Tohru Nakamura (Kumamoto University)
Viscous shock wave and singular limit for some hyperbolic system with relaxation

17:10 – 18:00  Yoshihiro Ueda (Kobe University)
New stability criterion for the dissipative linear system in whole space

18:00 –  Reception
